## Cornelia & Florence Bridge Nature Preserve

Enjoy a peaceful, leisurely stroll through the forest near the camp. Many of the three miles of trails in the Preserve are handicap accessible, featuring gentle hills with a total elevation gain and loss of under 200 ft and primarily wide, flat paths. However, be cautious in certain areas where rocks and tree roots may pose tripping hazards. Before his recent passing, Township native Charles Bridge donated his family's 300-acre property to Dingman Township. Charlie had two specific visions for the property: to honor his late wife's and mother's dream of preserving the land and to ensure it remains accessible for public enjoyment. Additionally, he requested that the park be named the Cornelia and Florence Bridge Preserve in their honor.

Please bring a hat, water, snacks, and good walking shoes. Some areas may become muddy if it has rained recently.

\*The section of the Florence Trail between Service Road and Cornelia Trail is NOT handicap accessible. There are too many rocks and roots to navigate, but there is a workaround to avoid this section of the trail.
